

THE FUTURE READY TO GO

Idstein, October 2019 – By bike, train or bus – ever more people are on the go in urban areas daily, heading to school, university or work. For them, **being visible in the dark** and **protecting** digital devices against the weather and theft are high priorities.

SAFETY FIRST!

To meet these needs, JACK WOLFSKIN has developed extraordinary products that integrate **futuristic design** and innovative functionality. The **PROTON** and **NEURON** backpacks combine **large reflective areas** with active illumination. Much more than just visual highlights, they ensure significantly increased visibility. Stylish and safe!
